

WALCHEREN

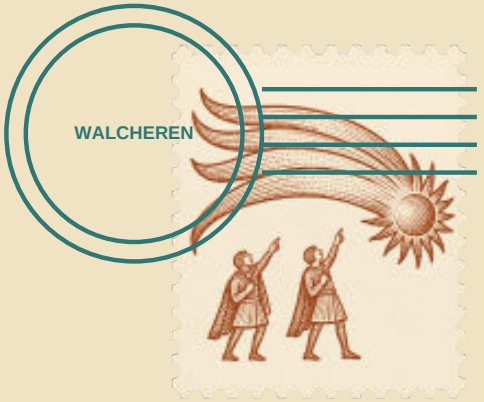

NETHERLANDS

POST CARD

Walcheren, in the Netherlands, where Vikings had already carved out their own toeholds on this coast – maybe even Rollo himself, if the old chronicles are to be believed.

Spent the evening watching the fishing boats come in with the tide and thought about him doing the exact same, centuries back.

With love,
Aunt Liv

FUN FACT

This stretch of coast saw Viking fleets wintering here for years before the year 911, when Rollo swapped raiding for a dukedom just south of here.
