

WALCHEREN

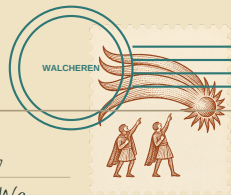

NETHERLANDS

POST CARD

Made a detour to the Netherlands before really starting Rollo's own trail – Walcheren, where Vikings had already carved out their own toeholds on this coast, maybe even Rollo himself if the old chronicles are to be believed.

Spent the evening watching the fishing boats come in with the tide and thought about him doing the exact same, centuries back.

With love,
Aunt Liv

FUN FACT

Some medieval accounts say Rollo spent years raiding and wintering around Frisia and Zeeland, this island included, before he ever became Duke of Normandy in 911. It's semi-legendary, but real Viking fleets were active on this exact coast in that same period.
